

About Portfolio

The Binary Capital Active Cautious Portfolio is designed to prioritise capital preservation while achieving modest returns through a blend of income and capital growth. A core objective is to safeguard capital, with the portfolio focused on growing capital steadily over time with minimal fluctuations in value. This strategy invests exclusively in open-ended fund vehicles, allocating across equities, fixed income, and alternative assets, with a strong emphasis on fixed-income and fixed income-like exposure.

Who is the portfolio targeted at?

This portfolio is suited to investors seeking an actively managed solution that provides genuinely differentiated returns beyond standard indexation. It is ideal for those comfortable with potentially higher costs compared to traditional indexation solutions. With approximately 40% allocated to equities, the portfolio offers a conservative risk profile, making it suitable for investors who prefer limited exposure to equity markets. This solution is particularly relevant for investors prioritising capital preservation, with the potential for modest capital growth through a mix of income and capital appreciation.

Capital at risk. Performance shown reflects simulated past performance, which is no guarantee of future results.

The returns shown may not be the same as the returns of an investor's actual account. This is due to various factors, including the investment date of the investor and differences across platforms. The returns are calculated through Morningstar Direct, and are provided for illustrative purposes only, and should not be viewed as the performance of an actual account. All performance is shown net of the holdings' management fees and expenses and includes Binary Capital's annual management charge; however, it does not include the advisor fees or the platform fees. Therefore, the actual performance experienced will be lower once these charges have been taken into account. The information in this document is not intended to influence you in making any investment decisions and should not be considered as advice or a recommendation to invest. Any information provided may not be suitable for all investors. The model portfolio service is offered by Binary Capital Limited, which is authorised and regulated by the UK Financial Conduct Authority (FCA ref: 507900) to provide services to professional clients and is the entity providing the discretionary management services.
